

THE CHILDREN'S PARTY

the children's voice in politics & society; the party of the future

Concept

The human race is the only species on the planet which omits to protect its young as an absolute priority

Throughout history, children have been exploited and abused in a whole range of horrible and horrific ways, with the full cognizance and complicity of the presiding religious or political elites of each era and area of the globe. The 10,000 infants a year sacrificed to Baal in Babylon's heyday typifies the syndrome.

In modern times this perennial assault on each new generation has largely gone underground and yet it continues unabated. All over the world, babies and children continue to disappear daily on an industrial scale ...

We will never progress to becoming a truly civilised and peaceful world unless and until we expose and deal with this hidden horror, continuously leeching 'psychic poison' (Jung) into human consciousness from deep within society...

The UK is a major offender in this regard.

The Children's Party (TCP) has been set up to address the problem by significantly raising the children's status in UK society. Those under 18 constitute some 20% of the population, yet they are the least represented and enfranchised sector of the citizenry! From now on, as 'the children's voice in politics & society', TCP will provide a conduit for the under-18s to influence the decision-making processes of parliament and government. Furthermore, with potentially millions of citizens including children themselves and whole families from henceforth on critical watch, the small minority who abuse children and the somewhat larger proportion of the population who for whatever reason knowingly protect those abusers will find it less and less easy to get away with their crimes. TCP will campaign to have ALL alleged criminality against children investigated and prosecuted at the point of perpetration rather than years later, when the damage has already been done to untold numbers of human lives. Those who cover-up the crimes as well as those who commit them will be liable for prosecution. TCP will help oversee the processes of justice & rehabilitation of genuinely remorseful offenders and act as a warning beacon for the future.

Organisational Profile

During the period of building up the membership TCP will remain an unincorporated Association; once it reaches critical mass it will transmute into a CIC (Community Interest Company) and register with Companies House and the Charity Commission. In common with other political parties TCP aims to extend its support-base through every constituency of the country. It may field candidates for parliamentary election in 2022.

Website: www.thechildrensparty.org.uk

Twitter: @TChildrensParty

Membership: WHOLE FAMILIES including children are especially welcome to register, as are childless but child-loving individual members of the public. During TCP's pre-political first 5 years members of existing political parties are invited to cross over to TCP or at least to offer moral support

HQ: Cyber-space

Emblem or logo: Designs invited!

Manifesto = The Children's Charter

Funding: via membership by annual subscription (£5, £10, £20, £50 according to means). Larger donations to fund particular projects and fuel TCP's ever-widening outreach in society will eventually be needed

If you believe The Children's Party to be a valuable new initiative in UK society, please help get it off the ground!

Become a member today by signing our contact-sheet or joining via the website. Our country's children need us – we normal people are all they have to protect them against the worst excesses of the state which as we have seen favours abusers over victims and is regularly guilty of horrendous emotional abuse of children and their parents through its policy of removing more and more children into care and/or putting them up for adoption. Child so-called protection has become a profitable industry, threatening family life everywhere. Please help end this madness in UK – restore sanity by supporting children & families, join The Children's Party today!
